

Issue 8

May 2023

School Management System

Designed to make administrating schools and classrooms easier and is comprehensive and affordable. Track student attendance, activities and improve communication between staff, teachers, students and parents.

Welcome Back - Term 2

Welcome back to everyone and we hope you enjoyed your Term Break if you managed to get one. As Term 2 is underway we wish to remind you all to get a head start on setting up your Semester Reports in uEducateUs.

See the quick guide via the following link: [Semester Reporting Setup Checklist](#)

If you need any further assistance, please give our team a call as they are extremely happy to help. Getting set up early will avoid any last minute set up issues and reduce your stress levels!!

Out and About

Fred has been busy setting up quite a few new schools recently. Busy times!! Set up and Training is predominantly done via zoom due to distance and for schools' convenience however Fred was able to travel to an East Gippsland school for Staff Face to Face Training recently. It's moments like these we can all appreciate.

ClearTrack

Schools who use ClearTrack will not see any changes in 2023 and will remain as is. The team at uEducateUs will continue to provide support however the ClearTrack platform will not undergo further development.

uEducateUs is a **'full featured'** School Management product which has recently migrated ClearTrack's data analysis features onto its cloud base and we welcome any school who would like to make the transition from ClearTrack to uEducateUs to contact us for further information.

Phone: 1300 833 500 or check out our brochure here:

https://ueducateus.com.au/docs/uEducateUs_March_2023_Flyer.pdf

System Maintenance

During the term one break, the system was unavailable for a total of two days while we migrated to a new storage environment. This migration was successful and hopefully did not inconvenience any users.

This change in system architecture will provide additional benefits as we continue to develop and expand on the features uEducateUs currently provides.

Additional architecture changes have been scheduled during future school holiday periods to limit any impact to our user base.

Semester Reports

With semester reporting due this term, a quick guide to the general setting and setup items has been added to the help and resources section. It can also be accessed via the help menu from within the reporting module itself.

Improvements have been added to the:

- 5-point-scale table
- New option to overwrite the General Comment class heading if desired

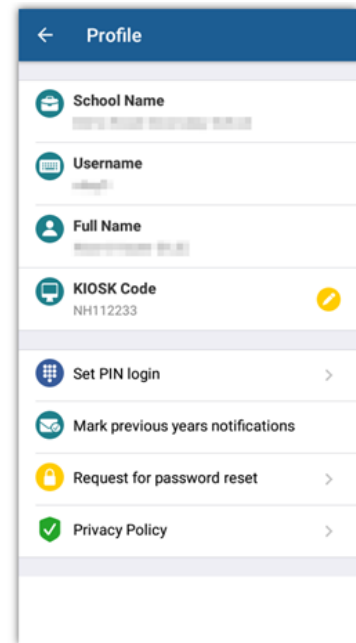

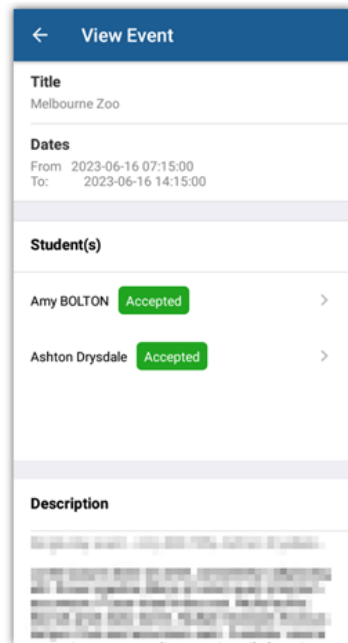

The screenshot shows a form titled "Overwrite General Comment heading". At the top, there are two radio buttons: "Yes" (which is selected) and "No". Below this is a green "+ Add" button. The form has two main sections: "Heading" and "Applies to classes". The "Heading" section has a text input field containing "2023 Semester 1 - General Comment". The "Applies to classes" section has a text input field containing "x P-6". A red trash icon is located in the bottom right corner of the form.

uEducateUs Mobile

Updates to the uEducateUs Mobile app include general bug fixes along with improvements to:

- Navigation improvements for permission slip entries from the diary
- View your Kiosk Code and change it if desired

Updates:

1.36 Release May 2023

Key new features in this release

Bite Size - Quick snippet

ADDING PAGES TO FAVOURITES ON UEDUCATEUS

It's as easy as 1,2,3 to add pages to your favourites for quick access!!

Navigate to any page that you would like quick access to:

1. Click the **Star icon** at the top right of the screen
2. Click **add to favourites** – name your page and give it a category
Remember to **save**
3. You will now see the link to your saved page. Here you can add extra categories or **edit or remove** favourite page links

Now whenever you click on the Favourites star icon your favourites will appear.

Adding pages to favourites

1. Click the **Star icon** at the top right of the screen.

2. Click **add to favourites** – name your page and give it a category. Remember to **save**.

3. You will now see the link to your saved page. Here you can add extra categories or **edit or remove** favourite page links.
