Term 3 Wrap-Up

What a fantastic term it's been! As Term 3 comes to a close, we are pleased to reflect on everything that has been accomplished over the past few months. Behind the scenes, our team has been hard at work introducing system improvements to make day-to-day school tasks simpler, smoother, and easier for everyone to manage.

System Updates & Enhancements

We are excited to share a quick summary of recent improvements implement across the platform:

- School specific Help and Resources documents can be added to the system for easy access via the Help navigation bar.
- New student header option has been released for semester reporting to reduce the page count in preparation for the 2027 single page report requirements.
- Case notes has received some new improvements including custom form features that you can utilise to collect specific information based on the selected case note category.
- Conversations can now be reported by the participant for review by a nominated school representative.
- Custom Student Report now includes the ability to save your favourite selections.
- The ability to view Notes and Documents have been added to the uEducateUs Mobile.

Feature Updates

Semester Report Updates

In line with the departments 2027 requirements, new semester reporting features will be implemented ready for Semester 1, 2027 and will see improvements to teacher subject allocations and shared class comment fields.

Custom student heading is already available for schools that wish to minimise the length of their reports for semester 2, 2026.

Achievement and progress report

This report provides a summary of achievement and progress across all learning areas and capabilities taught in Semester 2.

Student: Heath Allen

Year: Year 6

Class: 06

Semester: 2, 2026

Campus: Cases 21 QA School

Attendance: 88%

Principal: Miss Zoe ALIAPH

Teachers: Miss Lyse CONRAD

Conversation Reporting

All users can now report a conversation message if they deem it inappropriate in any way.

Action Required: School administrators must nominate specific user(s) to receive these reporting notifications. Designated administrators can then manage any reported conversations in line with your school's safety policy.

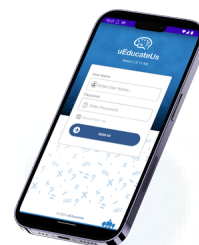

First Aid - Now for Staff and Parents

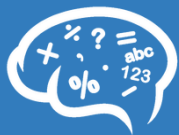

We've expanded the First Aid module to make record-keeping even easier. You can now log first aid incidents for Teachers, Administrators and Parents - all within uEducateUs.

Ready to set it up at your school? Check out our quick guide, [Managing First Aid](#), or get in touch with our support team – they are ready and happy to help.

Testimonial

I can let the school know if my child will be absent and for what reason and the school can send me notifications if an event is cancelled.

Tina

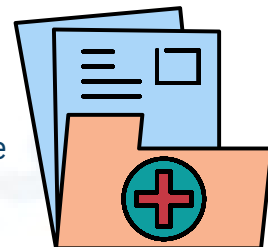

Case notes

Custom forms have been added to case notes this term. This provides further flexibility to record category specific information if required. Rather than just utilising the existing text box, you can now include single line, comment, multi-select, drop list and date fields to further enhance your record keeping options.

Student Medical Information

A new option to include parents declaration that the medical information for the student has been added. This can be enabled when creating a permission slip. Further improvements are planned for how we handle medical conditions as we migrate more schools to the eduHub v2 platform.

Custom Student Report

With so many fields available for selection, a favourite option has been added so you can consistently run your preferred selection when exporting data from the Custom Student Report in Data Lists.

Payment Intents

COMING SOON!

To be included in the next release of uEducateUs. These options allow for parents to advise how they intend to pay for items via the payment gateway other than via STRIPE (Credit Card). Once enabled, parents will have the ability to complete a cart and advise that they intend to pay via cash, direct deposit or any other form of payment that the school accepts. The system will create the intent so the processing of the payment when received is easily found and ready to process in the uEducateUs system.
